

Pool Interaction

Discord and Twitter Bot on Pool actions - 500 USDC

Create a Discord (\$250) and Twitter (\$250) bot for Pool interactions. The bot should send out a message describing the interaction with the pool.

The following data points must be specified in the message:

- pool name (collection)
- pool action (buy, sell, swap)
- sol exchange of user's interaction ("user_x paid y...")
- picture(s) of jpg(s) involved in transaction

The Frakt SDK should be utilized for this bounty, and it can be found here:

<https://github.com/frakt-solana/frakt-sdk>

Please contact @0xlarry#9659 on Discord with all questions
